Applicant SCHOTT AG						
This report is the international prelir under Article 35 and transmitted to th		International Preliminary Examining Authority				
This REPORT consists of a total of _	5 sheets, including	ng this cover sheet.				
This report is also accompanied by A	NNEXES, comprising:					
a. (sent to the applicant and	to the International Bureau) a total of 10	sheets, as follows:				
sheets of the descrip	tion, claims and/or drawings which have been	amended and are the basis for this report and/or ule 70.16 and Section 607 of the Administrative				
sheets which superso	sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental					
b. [] (sent to the International i	Bureau only) a total of (indicate type and numb	er of electronic carrier(s))				
	, containing a sequence listing and/or tables					
*	related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).					
This report contains indications relations	ng to the following items:					
Box No. I Basis of the	report					
Box No. II Priority						
Box No. III Non-establis	shment of opinion with regard to novelty, inven	tive step and industrial applicability				
Box No. IV Lack of unit	ty of invention					
BOX 110. V	atement under Article 35(2) with regard to nove d explanations supporting such statement	elty, inventive step or industrial applicability;				
Box No. VI Certain doct	uments cited					
Box No. VII Certain defe	ects in the international application					
Box No. VIII Certain obse	ervations on the international application					
Date of submission of the demand	Date of completion of the	nis report				
Name and mailing address of the IPEA/EP	Authorized officer					
Facsimile No.	Telephone No.					

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

The invention claims a glass or glass ceramic powder with antimicrobial properties. The only document among the above-mentioned documents which has been demonstrated to relate to a glass ceramic powder with antimicrobial

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/EP2004/010923

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

properties is the prior art document D20.

Documents D1-D6 and D11-D19 do not contain any indication on how to produce an antimicrobial powder.

The prior art in document D20 is detrimental to the novelty of the subject matter of claims 24-35 only because these claims do not refer to the glass ceramics defined in the preceding claims, since document D20 is silent on the composition of the glass ceramics. Document D20 does not contain any indication of a composition designed for the manufacture of an antimicrobial glass ceramic powder.
